The ortho-perio patient: solving clinical dilemmas, managing therapeutic challenges

WELCOME

Being the first systemized source of clinical evidence on the topic, the symposium introduces the participant to the orthodontic-periodontal interactions in everyday clinical practice, by considering the periodontal considerations of the orthodontic patient, and the contribution of orthodontic treatment to the periodontally-compromised dentition.

Within the scope of these two basic axes, a wide variety of topics are analysed, such as recessions and grafting and surgical management of the recessions, corticotomy in orthodontic routine, orthodontically-induced stresses in the periodontium, orthodontic treatment in advanced periodontitis, biomechanics for the periodontic patient and a review of the evidence for the ortho-perio interactions. In addition, a section covers fundamentals of oral physiology with regard to the topic, with presentations on attachment of microbial to surfaces, epidemiology of the periodontal disease and pellicle organization-plaque accumulation on materials.

The analysis of the evidence on the topic along with the illustrated case material, assist the participant in formulating principles of management of the entire spectrum of challenges encountered in adult orthodontics and interdisciplinary treatment.

Theodore Eliades

Christos Katsaros

Anton Sculean

- 8:30 Opening of the registration
 9:00 Introduction **Theodore Eliades**

SESSION I. FUNDAMENTALS OF ORTHODONTIC-PERIODONTIC INTERACTIONS

- 9:05 **George Belibasakis** (Stockholm, Sweden): Microbial colonization of orthodontic appliances
 9:35 **Theodore Eliades** (Zurich, Switzerland): The physical chemistry of integument formation on enamel: minimizing the plaque retaining capacity of teeth
 10:00 **Marc Schaetzle** (Zurich, Switzerland): Epidemiology of the periodontal disease
 10:30 Coffee break

SESSION II. PERIODONTAL CONSIDERATIONS FOR THE ORTHODONTIC PATIENT

- 11:00 **Giovanni Salvi** (Bern, Switzerland): Periodontal examination of the orthodontic patient
 11:30 **Christos Katsaros** (Bern, Switzerland): Orthodontic tooth movement and development of gingival recession
 12:00 **Anton Sculean** (Bern, Switzerland): Surgical management of gingival recession in orthodontic patients
 12:30 Lunch break
 13:30 **Dimitrios Kloukos** (Athens, Greece / Bern, Switzerland): Timing of soft tissue augmentation: before or after the orthodontic treatment?
 14:00 **Raffaele Spena** (Naples, Italy): Alveolar corticotomy as an adjunct to orthodontic treatment

SESSION III. ORTHODONTIC CONSIDERATIONS FOR THE PERIODONTIC PATIENT

- 14:30 **Christoph Bourauel** (Bonn, Germany): Orthodontic mechanics-induced stresses in periodontally-compromised teeth
 15:00 Coffee break
 15:30 **Tali Chackartchi** (Jerusalem, Israel): Orthodontic treatment in the presence of an advanced periodontal disease-Minimizing the risks
 16:00 **Carla Alberta Verna** (Basel, Switzerland): Orthodontic biomechanics in patients with periodontal disease
 16:30 **Spyridon Papageorgiou** (Zurich, Switzerland): Orthodontic treatment and compromised periodontal tissues: a review of the evidence
 17:00 End

INFORMATION

Price	CHF 650
Venue	Dolder-Grand, Kurhausstrasse 65, CH-8032 Zurich www.thedoldergrand.com
Access	www.thedoldergrand.com/directions
Registration End	Monday 24 th February 2020, after this date it is only possible to register on-site.
Cancellation	All registrations are considered definitive. All cancellation before the 24 th February 2020 lead to administration fee of CHF 100. After this date the full registration amount will be due.
Bank details	Bank EEK AG, CH-3001 BERN IBAN CH65 0839 4045 0746 9310 8, Clearing 8394, Swift EEKBCH22 On behalf of Veronika Thalmann & Partner GmbH, ORTHO-PERIO 2020
Credited hours	The participation gives right to 6 hours of continued education.
